## **Overview : Maths and Science Clinics.**

- **September:**

Pupils and parents informed about when and where the clinics will take place.

- **October – November:**

Clinics open during lunch times. Teachers use EXCEL chart to note who attended and what was covered.

Exam practise: two - three weeks before exams, one day for S5 and one for S6.

S7 exam practise: December and January.

- **December:**

Review/evaluation meetings with coordinator to assess how the clinics are working and to decide on any necessary changes.

- **January- February:**

As Oct'- Nov' above. February class councils pupils identified as needing support the following is written on "pagella" by prof' principale:

***"Attendance at maths/science clinic strongly recommended"***

- **March-April:** as Jan' –Feb' above.

**April** (before Easter holidays) review/evaluation meetings with coordinator to assess how the clinics are working and to decide on any necessary changes

**April reports:** pupils identified as needing support individually emailed by Educational Advisor linked to attending the clinic.

- **May:**

Clinics focus on exam practice for S5: email sent to all S5 parents informing them about this.

- **June:**

Class councils: has attendance at the clinic helped with pupil's understanding and achievement in maths or the sciences?

Review/evaluation meetings with coordinator to assess how the clinics are working and to decide on any necessary changes for the next school year.
