
Science Clinics

Science clinics (covering biology, chemistry and physics) for S4 and S5 will start Tuesday 13th October 13.50-14.30.

Rooms: D104, D105 and D203

Pupils will be able to pop in to get advice linked to aspects of work which they would like further help with.

The aim of these clinics is to provide the opportunity for pupils to:

- Ask questions to check the understanding of a concept
- Work further developing a skill
- Discuss work not fully understood
